

## TO ERECT COMPRESS AT CAMDEN, ARK.

CAMDEN, Ark., May 7. (Sp.)—Camden business men today subscribed for \$50,000 worth of stock in a new compress and warehouse company and the plant will be in operation, it is said, within the next 30 days.

The business men at a meeting held by the Camden chamber of commerce accepted the proposition for the establishment of a two-thousand-pound Bierce hydraulic press made to them by C. B. Tindall, representing the Churchill Compress company, of Memphis, and at the meeting, within less than 30 minutes the total stock was subscribed.

The Churchill Compress company will move a complete compress plant, which the company has had in operation at Argenta, install and place the equipment in perfect running order and will furnish expert men to operate it. The company is to be capitalized at \$100,000, of which the Churchill company is to subscribe \$50,000 and the business men of Camden \$50,000.

Wonderful facilities offered by river transportation and three railroads running into Camden will make this place an excellent concentration point, it is claimed, and the establishment of the compress here will encourage American and foreign cotton firms to buy cotton here. The Churchill interests now operate 16 compresses in Mississippi, Louisiana and Arkansas.

## BRITISH PAPERS RESENT U. S. IRISH ATTITUDE

LONDON, May 7.—Only two of this morning's newspapers comment on the letter sent by American congressmen to Premier Lloyd George relative to the Irish situation and the tone of their editorials is somewhat resentful against outside interference in British internal affairs.

It is an elementary maxim of the foreign policy of most civilized nations that one state department should not interfere with the internal affairs of another nation, says the Daily Graphic, which seems to view the memorandum as a political move. "No lecturer of any country has the right to impel the good relationship existing between his nation and any other merely because he wants to attract votes to himself."

The newspaper declares Irishmen have the same redress, if wronged, that is given any other citizens of the United Kingdom, and it points to the wholesale arrest of Bolsheviks in America as analogous to the situation in Ireland.

## ENGLAND ON EVE OF RUSS NEGOTIATIONS

LONDON, May 7.—Great Britain is on the eve of negotiations with Soviet Russia, a Moscow wireless message today asserts.

Carl Curzon, the British foreign secretary, the message says, has forwarded to M. Tschitcherine, the soviet commissary for foreign affairs, a declaration in which direct conversations with Gen. Wrangle, commander of the remnants of the Russian volunteer army are proposed.

These conversations, it is declared, are desired by Great Britain in order that definite negotiations may be begun concerning the cessation of the Bolshevik advance into the Crimea and British officers would participate in the negotiations.

M. Tschitcherine, continues the message, replied that the soviet government was prepared to meet the desire expressed in the British communication and to enter into negotiations with the British government.

## PROTEST RECOGNITION OF SOVIET RUSSIA

NEW YORK, May 7.—The national civic federation, through its president, Alton B. Parker, announced today it had filed with President Wilson a protest against recognition of the soviet government of Russia and had telegraphed all prospective presidential candidates asking them to define their position on the subject. The telegrams were signed by hundreds of prominent men and women.

The federation declared the inquiry was urgent because one presidential candidate already had stated that the United States was coming to a point where there would be no other course to pursue than recognition of the soviet. Candidates were asked to support the federation's stand against recognition.

## MISSISSIPPI LEGION AFTER 25,000 UEBERS

JACKSON, Miss., May 7. (Sp.)—To enroll 25,000 members during the week from May 17 to May 22 is the purpose of the Mississippi branch of the American Legion.

Plans for the membership campaign have been transmitted to the various local posts, committees are being formed and the membership drive among the ex-service men promises to be a very aggressive event.

Nearly 100 posts of the American Legion have been formed in the state within the past year, and the membership is steadily growing, although no active efforts have been made by a majority of the posts to enroll members.

## FARMERS' UNION MAN SAY TEXAS RAINS HURT

FORT WORTH, Tex., May 7.—President Lyndon of the Texas Farmers' union estimated today that the rains of this week have placed the Texas cotton crop in the worst condition of its history. The flooding and washing of fields, he said, just added to the loss inflicted by the late frosts and cold.

## Amusements.

### Loew's Lyceum.

Highly amusing yet carrying a moral, "The Mirror," with A. H. White, stands as one of the best sketches recently at Loew's Lyceum. This shift opened Thursday for the last half with four other good acts. The action of the playlet is fast enough, the lines clean and crisp and the cast well above the ordinary.

Erford's Golden Whirl produces three exceedingly good-looking young misses who work fast, know how to work and in a well-staged aerial act, get strict attention. Gene and Katherine King put over a lot of humor, largely centered on marriage life. Their songs are new. Two speedy blackface boys are Allan and Gould, whose gags are clever and well handled. Their like and Hawaiian interpretation of "Nigger" numbers is a scream. The picture stuff is not bad at all. Martin and Elliott got off rather slow but finally went into eccentric dances that are good for any three-a-day bill.

"Molly and I," with Shirley Mason, is a quaint, well-told story of a blind love that can thoroughly see. This film is 5,000 feet of Miss Mason at her best.

### Orpheum.

Ralph Paulkner looks like President Wilson, admits it and also admits that he is not in the White House. Ralph owns to being a former newspaper man. While he, like certain news writers who have not drifted to the stage, might like a nip now and then, he ought to be strict about it. He is a nifty story teller whose knack of spinning a yarn is exceeded only by the brightness of some of the things he relates.

If Betty Edith hopes to stick in variety she will change the "Apple Blossom Time" act. Most everyone in Monday night's audience knew the turn line for line. Miss Edith has a freak voice that attracts while the man whistles in an extraordinary way. The Rorlick and Sarapina offering is billed as descriptive dancing. It's that and more. Two comely young women and a man step through some well-executed Russian numbers that are different to the extreme. The girls are costumed well and dance nicely. Palfrey Hall and company do a bit of everything in opening the vaudeville variety show.

The feature picture with Zena Keefe did not arrive and "The Imp," starring Elsie Janis, was substituted. The excellent express company promises delivery Friday. As the express company is an honorable organization, Manager Bertram promises the film for today's shows.

### EDMUND PLATT HONORED.

WASHINGTON, May 7.—Edmund Platt, of Poughkeepsie, N. Y., a Republican representative from the Twenty-sixth New York district, has been selected by President Wilson for membership on the federal reserve board.
